RUDRAKSH GOGINENI

San Francisco, CA · (443) 514-9269 · rudrakshg621@gmail.com · LinkedIn

PROFESSIONAL SUMMARY

Results-driven Business Analytics professional with an MS in Business Analytics (Trine University) and a BBA (Deakin University, Melbourne, AU). Brings 1–2 years of hands-on experience spanning data analysis, infrastructure projects, sales operations, and entrepreneurial venture management. Adept at translating complex datasets into actionable business decisions and delivering measurable outcomes in fast-paced, cross-functional environments. Seeking a data-driven business role in California where analytical rigor meets strategic impact.

PROFESSIONAL EXPERIENCE

Data Analyst | *Startech Networks — Ericsson (Meta & Google)* Jul 2025 – Present

Plano, TX

- Gathered critical capacity and performance data across multiple enterprise data centers (on-site and remote) to drive planning and execution of server installations and hardware upgrades for Meta and Google via Ericsson.
- Applied analytical insights as a third-party service provider to inform and execute technical decisions for data center network and server projects, directly improving client infrastructure readiness and maximizing system uptime.
- Collaborated with Ericsson engineering teams to deliver data-backed infrastructure scalability recommendations in highstakes production environments.

Sales Associate | *AT&T — Global Commerce Careers* Apr 2025 – Jul 2025

Sacramento, CA

- Streamlined site operations and improved team efficiency by 20% by enhancing communication protocols and customerfacing processes.
- Delivered product consultations on AT&T internet fiber to prospective members, translating technical features into clear value propositions that maximized conversions and customer savings.

Managing Director & Lead Analyst | *Rare Automotive (Self-Founded)* Dec 2023 – Present

Berkeley, CA

- Founded and operate an independent vehicle resale business; sourced, restored, and sold 85+ vehicles generating over $100K in profit within the first year post-graduation.
- Applied data-driven market analysis to identify undervalued inventory, time listings strategically, and optimize pricing — reducing time-on-market and increasing average sale value.
- Analyzed listing performance data from Facebook Marketplace and Craigslist to refine post timing and format, directly improving buyer engagement and conversion rates.
- Managed all operations end-to-end: budgeting, title transfers, inspections, and parts sourcing — demonstrating full ownership of a P&L-driven business.

Supply Chain & Logistics Assistant | *Sigma Dignity HealthCare* Jun 2022 – Nov 2022

Melbourne, AU

- Tracked and analyzed inventory movement across 400+ facilities to ensure on-time delivery of essential medical supplies and equipment.
- Reviewed supplier performance metrics and flagged recurring delivery or quality issues, contributing to a 15% improvement in order accuracy.
- Streamlined internal reporting by organizing shipment and delivery data, enabling leadership to identify operational bottlenecks and trends more efficiently.
